***Read by Jason Hodgson***

Everyone must leave something behind when they die.  
A child or a book or a painting or a house or a wall built,  
or a pair of shoes made. Or a garden planted.

Something your hand touched some way,  
so your soul has somewhere to go when you die,  
and when people look at that tree or that flower you planted,  
you're there. It doesn't matter what you do,  
so long as you change something from the way it was  
before you touched it into something that's like you  
after you take your hands away
